## LITERARY NOTES.

Mr. B. H. Buxton's novel, "The Sceptre and The Ring." has made its appearace in the Franklin Square Library

M. du Chaillu's new book, "The Land of the Midnight Sun," will appear in London early this month. The author is visiting Mexico with no literary intent, it is said.

"Sabine's Falsehood," a love story, by the Princess Cantacuzene-Altieri, has been translated by Mrs. Mary N. Sherwood, and printed by T. B. Peter-

son & Brothers. Mr. William M. F. Round has written a new story called "Rosecroft," which has to do with everyday life and every-day people, and is published by Lee & Shepard.

The adventures and mishaps of two Boston gentlemen will be described in an illustrated brochure called "Summer Rambles," which A. Williams & Co. have in press.

General di Cesnola's book which will describe at length the Cypriote treasures will be entitled "Salaminia" because a large p rt of the objects described were found on the site of the ancient Sala-

A sixpenny edition of Lady Brassey's "Voyage in the Sunbeam" has been published in England, and The London Times lauds its superiority in typography and cheapness to the cheap publications of

Two handsomely illustrated holiday books, which E. P. Dutton & Co. will have ready in October, are "Holly Berries," the pictures by Ida Waugh, and "The Children's Kettledrum," with new designs by a London artist.

The last number of Madame Adam's Nouvelle Reven contains an interesting biographical sketch of Alphonse Daudet, by his almost equally clever brother Ernest Daudet, who is a genuine admirer of his brother's genius.

It was Napoleon who said of the letters and style of Madame de Sevigne: "Her style is undoubtedly full of charm, but you gain nothing by reading her. It is like eating snowballs, with which one can surfeit one's self without satisfying the stomach."

Mr. W. O. Stoddard, who has shown himself to be a fluent and interesting story-teller, has written a serial story for Harper's Young People, which will be begun in the number for October 4. It is called "The Talking Leaves," and describes Indian life in Arizona and Mexico. It is said that the illustratrations by Mr. Thulstrup were made from actual scenes and incidents.

The gentleman of Bangor, Me., who publishes the fruits of his labor (or recreation) as an analyzer and indexer of magazines, under the pseudonyme "Q. P. Index," has just issued his index to The Eclectic. and to volumes 37 to 148 of The Living Age. The system, which at first sight seems complicated, can be mastered in five minutes, and the signs employed convey a great deal of information in a little space.

"Arne." the second volume in the "author's edi- The Proposed Substitutes for The Ascent of Man. tion" of Bjornstjerne Bjornson's novels (Houghton, Mifflin & Co.), is now ready, and has a happily conceived cover on which the pine cones of Norway are conspicuous. This story was written in 1858, and is regarded by many as the novelist's best work.

Miss Braddon has replied to the article in The Pall Mall Gazette entitled "Scott in Pennyworths," in a letter which contains the following statement of her purpose: "The idea of abridging the Waverley Novels in such a manner as would make them cheap enough for the million to buy and cheap enough for LL.D., F.R.S., F.R.C.S. With illustrations. 12mo, 75 cents the million to read was suggested to me by a pas- THE EVERSLEY EDITION OF CHARLES sage in a speech of the Archbishop of Canterbury m which he deprecated the quality of the literature Alton Locke, Tailor and Poet: an Autobiography. By of amusement provided for the people. It immediately occurred to me that the Waverley Novels, for Hughes, Esq., Q.C. 2 vols., 16mo, \$3.50. half a century the delight of the educated classes, FRENCH HISTORY FOR ENGLISH CHILDREN. might be so condensed and simplified as to give equal pleasure to that vast multitude of readers who have neither enough leisure nor enough cul ure to NOTES AND THOUGHTS ON GARDENS AND enjoy the works of a novelist who dearly loved to the word-painter, and whose style in all its scholarly exuberance is assure ily far above the heads of the million. For the million, and for the million only, I have abridged these dear books, in the fullest hope that thousands who make their first acquaintance with Scott in this simplified form will learn hereafter to appreciate him in all his amplitude of thought and detail. Many and many a time I have heard readers, not without education, avow that they had tried to read Scott and could not. His opening descriptions were so long-his dialogue was so Scotch. Like Dr. Johnson, the general reader wants to tear out the heart of a book. How then could the Board-school boy or girl be expected to gloat over a threepenny edition, in type so small as to require the use of a magnifying glass, or to taste with rapture the author's prefaces, delightful as these may be to the student, lovingly lingering over a twice-told tale? In conclusion, I can only say far from the production of these little books being a catchpenny enterprise, it is a work which never will and never can remonerate me for the labor I have given to it. I have devoted just six months of my life to the preparation of these thirteen stories-exactly the time it took me to write my novel 'Vixen'; and if my critic had any familiarity with the book trade he would understand the loss involved in this fact."

MINES AND MINING. FRIDAY, Sept. 30-P. M.

The mining stock markets to-day were active enough, but they were generally depressed. Yesterday's San Francisco closing prices published here this morning disappointed the h pes that the earlier quotations had raised, and the violent decline affected not only the Comstocks but nearly our whole market. Consolidated Virginia sold down whole market. Consolidated Virginia solid down to 2.45@2.55 and California to 1. Asto-day's opening San Francisco figures, which were much lower than last evening's closing, were not received here until after board hours, their effect is not reflected in the printed sales. State Lines were weaker; 2 and 3 down to 3.65@3.70, 1 and 4 to 86@87 cents, and Oriental and Miller to 78@79 cents. Chrysolite was stronger and rose to 83s. Iron Silver was steady at 2.45, and Robinson at 13½. Cherokee continued active at 1.60@1.65. The markets closed irregular.

rregular.

The Tombstone Mill and Mining Company yesterday declared a regular monthly dividend (No. 19) of 10 cents per share, payable October 15. Transfer books will be closed from the 10th to the 15th inclusive.

To-day's transactions in stocks furnished addi-

tional evidence of the character of the present stock market and further developed the smallness of the interest that the public is taking in the specu-

ation. The drift of stocks is toward the market and not from it; but the movement is yet so small that it hardly interferes with the daily manipulations to force a raily in prices. To-day's market was like those of the preeding days. A small decline followed the opening, after which there was a sharp rally. But no sooner was a market provided, because of the seeming strength of prices, than the task of feeding stocks again was begun. Prices, however, were very well supported until the last half hour, when the pressure to sell sent prices generally below the opening figures. Lake Shore and Michigan Central stocks were the steadiest of the list, on renewed reports that all the trunk line railroad difficulties were amicably arranged. The facts that were developed to-day, and the publication of Mr. Garrett's reply to Mr. Vanderbilt's interview, published in The Tribune some time ago, however, seem to indicate that the settlement is further off than ever. Mr. Vanderbilt evidently is pushing his connections into the

Southwest and perhaps to Philadelphia, which will complicate future negotiations

for an arrangement for a division of

traffic until each contestant has demonstrated

will be a direct blow at the Wabash system, from Toledo to the Southwest, the C., C., C. and I. con necting with the Lake Shere at Cleveland. It is also true that the breach has been widened, by notice to the Eric Company that its fast freight lines will not be taken over the Lake Shore road after the expiration of ninety days. All of these matters, however, are more fully told in our local columns. The transactions in stocks today amounted to 295,797 shares, against 289,746 shares yesterday, but it was a duller day, except in the last half hour, than yesterday. Delaware, Lackawanna and Western was exceptionally strong at 128 and upward, until the announcement of 134 per cent dividend; after that the price declined to 127@12718. Manhat an Railroad stock was especially weak and sold down to 1912@2038, the general opinion being that receivers certificates secured by no property will find few, if

any, takers. The market closed weak. A moderate amount of business was done in Government bonds, principally in the continued 5s and the 4s. Prices were steady, and the final bids for the continued 5s are 1s higher than yesterday. Annexed are the closing quotations:

In State bonds, the Arkansas railroad issues were active and advanced to 274@2612 for all the issues except those to the Central Railroad, which sold at 2012@22@21. The movements in these bonds are attracting a good deal of attention as the purchasing does not seem to emanate from ordinary speculators. The amount of the various issues are as follows: to the Memphis and Little Rock Railroad, \$1,200,000; Little Rock Railroad, \$1,200,000; Little Rock Railroad, \$1,200,000; Little Rock, Peru Bluff and New Orleans Reilroad, \$1,200,000; Mississippi, Onachita and Red River Railroad, \$600,000, and to the Arkansas Central \$1,350,000. North Carolina special taxes also were anusually active and rose from \$14\$ to 103\pi \text{2}\text{2}\text{2}\text{2}\text{3}\text{4}\text{3}\text{5}\text{3}\text{0}\text{0}\text{0}\text{0}\text{2}\text{3}\text{1}\text{3}\text{5}\text{0}\text{0}\text{0}\text{2}\text{2}\text{3}\text{1}\text{3}\text{5}\text{0}\text{0}\text{0}\text{2}\text{2}\text{3}\text{1}\text{3}\text{5}\text{0}\text{2}\text{0}\text{2}\text{1}\text{2}\text{3}\text{2}\text{3}\text{5}\text{0}\text{3}\text{2}\text{3}\text{5}\text{4}\text{2}\text{3}\text{4}\text{3}\text{5}\text{4}\text{3}\text{4}\text{3}\text{5}\text{4}\text{3}\text{4}\text{3}\text{4}\text{5}\text{4}\text{5}\text{4}\text{3}\text{4}\text{5}\text{4}\text{5}\text{4}\text{5}\text{4}\text{5}\text{4}\text{5}\text{4}\text{5}\text{4}\text{5}\text{4}\text{5}\text{4}\text{5}\text{4}\text{5}\text{4}\text{5}\text{4}\text{5}\text{4}\text{5}\text{4}\text{5}\text{4}\text{5}\text{4}\text{5}\text{4}\text{5}\text{5}\text{4}\text{5}\text{5}\text{4}\text{5}\text{5}\text{4}\text{5}\text{5}\text{4}\text{5}\text{5}\text{4}\text{5}\text{5}\text{4}\text{5}\text{5}\text{4}\text{5}\text{5}\text{4}\text{5}\text{5}\text{4}\text{5}\text{5}\text{4}\text{5}\text{5}\text{4}\text{5}\text{5}\text{4}\text{5}\text{5}\text{4}\text{5}\text{5}\text{5}\text{4}\text{5}\text{5}\text{4}\text{5}\text{5}\text{4}\text{5}\text{5}\text{4}\text{5}\text{5}\text{4}\text{5}\text{5}\text{5}\text{4}\text{5}\text{5}\text{4}\text{5}\text{5}\text{4}\text{5}\text{5}\text{4}\text{5}\text{5}\text{4}\text{5}\text{5}\text{4}\text{4}\text{5}\text{5}\text{4}\text{4}\text{5}\t 2012@22@21. The movements in these bonds are

to 60. Kansas Pacific consols declined is to 110%, and Texas and Pacific incomes were 1 per cent lower at 75.

The business of the Sub-Treasury for the week ending to-night includes the receipt of \$12,240,476 and the payment of \$7,040,177. The result is a gain to the seneral balance or \$5,200,299, and leaves it at \$87,837.184 against \$82,636.852 September 23. The particular changes of the week are gains of \$4,231,437 coin, and \$968.632 currency. The receipts of the week, however, hadide \$1,000,000 United States notes (legal tenders) from Washington, \$1,000,000 silver certificates (cunted \$1,000,000 Hinded States notes (legal tenders) from Washington, and \$1,000,000 gold coin from the Philadelphia mint. So that as affecting the local market, the changes are a coin gain of \$2,231,437, and a currency loss of \$31,138. As the week's shipment to the interior in coin or silver certificates has augmented to over \$2,500,000 the foregoing changes in the Sub-Treasury balances indicate a large specie loss in to-morrow's bank statement. Money was active and stringent to-day, loaning from 6 per cent to interest and 1s per cent commission. The highest rate was paid at the close. The domestic exchanges on New-York are as last quote i, except a further decline to 50 cents discount at Boston. The United States Treasury at Washington to-day received \$191,000 National bank notes for redemption. The customs receipts were \$621,071, and the revenue receipts were \$550,886. The Clearing House statement to-day is as follows: Exchanges, \$138,963,725: balances, \$5,026,93; currency balance, \$5,026,194: coin balance, \$52,810,957.
